PURPOSE OF THE JOURNAL

As an interdisciplinary refereed journal, the purpose of the *Journal of Global Business and Technology (JGBAT)* is to contribute to the advancement of knowledge related to the theory and practice of international business and technology management. Its primary goal is to present scholarly and managerially relevant articles on a wide variety of topics in international business and technology management to a broad audience in academia (educators, administrators, students), industry (business executives, consultants), as well as those involved in formulating and implementing public policy. Articles should be timely, providing guidelines, techniques, and suggestions for problem solving in international business and technology management. Case studies relating to specific organizations, products/services, and industries are also welcome. It is a prime objective of JGBAT to bridge the gap between theory and practice. To this end, articles should offer strong managerial insights to help in the development of action-oriented business programs and strategies.

STYLE GUIDELINES

1. Manuscripts must be double-spaced with normal margins (Top: 1 inch, Bottom 1 inch, Left: 1 inch, Right: 1 inch) and Letter size (8.5 inches x 11 inches). All pages should be numbered sequentially.

2. Manuscripts should have a cover page with the following information of each author: name, affiliation, and area of concentration (e.g., accounting, marketing, etc.). No other pages should contain information about the authors.
3. An abstract of at least 200 words, including 5 key words, must appear on the 2nd page of the manuscript. The abstract must state an adequate summary of article's content (i.e., objective(s), rationale, methodological rigor, and major contributions & implications).
4. The paper itself should begin on the 3rd page. Manuscripts should not exceed 25 double-spaced pages including tables, figures, and references. Manuscripts that exceed these limits are routinely returned to the authors for shortening before consideration.
5. Tabular material and figure legends should be in box form and incorporated in the proper part of the text. They should also be contained in the Microsoft Word and cannot be hand drawn. Tables should be numbered in Arabic numbers (i.e., Table 1). Columns should be set using tab stops, not spaces, so they align. Figures are numbered similarly to tables (i.e., Figure 1).
6. References should be made by the in-text form of citation. The Reference List should include information for all sources cited in the manuscript. The author should make sure that there is a strict one-to-one correspondence between the references in the text and those on the list. It should be double spaced and listed in alphabetical order according to APA style by author's last name, but including first name initial, on a separate sheet at the end of the manuscript.
